About Me

I am a passionate and detail-oriented MERN Stack Developer with one year of training in designing, developing, and maintaining full-stack web applications from Tops Technologies. Skilled in building scalable, user-centric applications using MongoDB, Express.js, React, and Node.js. I thrive in collaborative environments, leveraging problem-solving skills and a strong foundation in modern web technologies to deliver efficient and innovative solutions. Adept at managing project lifecycles, from conception to deployment, while ensuring optimal performance and user satisfaction. Committed to continuous learning and staying updated with the latest trends and advancements in web development.
